Judge: Steven Rhodes,

Sir, I am writing this letter to tell you how the decision made about the Det. Pensions affects me personally. I am a 69 year old widow who has no other income but what I receive from social security and my City of Detroit Pension. My child was raised in a single parent home. I did the best I could. I have 5 beautiful grand children, on occasion I contribute financial support to them. College, car repair, birthdays, holidays ect. This will no longer be ^{possible} for me.

I recently had a stroke which means I can't go back to work if I need to, which I need to do now. Cutting my pension check would be devastating to me. I already have a third of my pension left to my son. Why? because of past health history I could not afford life insurance. Now if you take another third out of my pension: My pension check will be practically nothing. The co-pays for my health insurance has gone up. I have 8 ~~medications~~ ^{medications} I take daily for just my heart conditions that a lot of co-pays.

When I retired I left a third of my pension after death to my son, I cannot change that. Since they will decrease my pension check, why can't I ~~rescind~~ ^{rescind} my third of my pension to my son, so I can have more on my pension check. Please don't touch my pension check.

Sincerely, thank you
Barbara Hunt
